

COLLABOVENTURES

About "CollaboVentures"

The company WOTRA was due to the perceived need for integration of different sectors, fields of activities, experts and investors began to develop its own platform called »CollaboVentures«, which operates within the framework of WOTRA. The purpose of the platform is to connect different sectors, fields of activities, processes, domestic and foreign experts from private, professional and academic environment, individuals-talents, investors and others in cases when it is required that businesses can take advantage of market opportunities or in order to be competitive in one or more markets.

The basic objectives of the platform are to:

- increase the international visibility of the platform, and its partners and members, getting members and partners from other countries, thereby opening up of international markets and opportunities for all involved
- develop international marketing and sales channels
- promote partnerships and collaborative business models between members and partners of the platform both in the development stage of the companies' products and services as well as in their phase of sales
- provide membership benefits offering services, products and tools developed by WOTRA or by CollaboVenture's partners and members
